The dream of the past and an improbable future..

Night after night, Takakage's dreams take him away to another life. A life where a very special girl named Ayame is the central part of his life. Yet every morning he awakens to the disappointment of reality where his dream girl is only a faint memory. If only she was more than just a dream..

When Takakage has his fortune read, his perception of reality drastically changes. It seems that his dreams are more than just mere fantasy! He did, in fact, live 400 years before... lived and died.. and..

Through the mists of time, spirits move freely and mysteriously. Souls who were once drawn together tend to draw together again. And, lovers can reappear in places where they are least expected!

In the tradition of "Cool Devices," each stand-alone volume of the Vanilla Series presents disparate themes of fantasy erotica by various authors and artists which will take your breath away...
